

Highflyers Jump Rope Team Sponsorship Request – 2020

The Highflyers Jump Rope Team is a competitive and performance, youth jump rope team based in Katy, Texas. The team's mission is to promote the sport of jump rope as a fun, heart healthy activity that builds teamwork, dedication and responsibility.

Established in 2000 the Highflyers is a non-profit 501(c)(3) volunteer organization.

The Highflyers, as a member team of USA Jump Rope, can participate in three major competitions. Annually, at USA Jump Rope's Regional and National tournaments; and biannually at the International Jump Rope Union World Championship.

The Highflyers first competed in 2001. Since then, the team has consistently achieved medals at all levels of competition. This includes: multiple age group champions at Regional and National competition; and five Grand National titles at the U.S. National Championship. In addition, members of the team have been part of Team USA, and competed at the 2012, 2014 and 2016 World Championships in the U.S.A, Hong Kong and Sweden, respectively.

Outside of competition, the Highflyers participate in local workshops and camps. The team makes various performances throughout the year. This has included performances for: Houston Children's Festival, Children's Museum of Houston, Pine Cove Christian Camps, University of Houston and Rice University women's basketball games, NCAA Final Four Fan Fest; and various school, church and other local events. Members of the Highflyers have performed as part of combined jump rope teams in the Dallas Holiday Parade and the Macy's Thanksgiving Parade.

The importance of good sportsmanship, leadership and teamwork are emphasized to all team members. The Highflyers is open to all youth in the Katy and the Houston metropolitan area and currently comprises approximately 20 jumpers ranging from 7 to 16 years old. Team members reside in the Katy, Richmond and Alief areas and reflect the diversity of their communities.

As a team sport, it is important that all our jumpers can participate in activities and competitions. Our jumpers contribute towards the cost of team activities (e.g. training facilities, uniforms, equipment, transportation, room and board, insurance and incidentals) through team fees, and various fundraising activities. However, the team would like to remove some of that burden and provide wider access to the sport of jump rope regardless of financial means.

The team is seeking sponsors for 2020 and appreciates your consideration.
